

# KARTIK MAHAJAN

AI/ML Engineer

+91 9030297348 | kartikmahaja85@gmail.com | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

3<sup>rd</sup> year B.Tech student specializing in AI at Bennett University (CGPA: 9.0/10), with hands-on expertise in building end-to-end AI/ML systems and full-stack web applications. Proficient in Python, Java, and JavaScript, with practical experience across deep learning (TensorFlow, Keras), ensemble ML models, and modern web frameworks (React, Node.js). Demonstrated ability to design intelligent healthcare solutions, secure banking systems, and applied NLP/Computer Vision pipelines. Strong competitive programming background with 100+ DSA problems solved.

## TECHNICAL SKILLS

**Languages:** Python, Java, C++, JavaScript, SQL

**AI / ML:** Machine Learning, Deep Learning, NLP, Computer Vision

**Databases & Tools:** MongoDB, MySQL, Git, GitHub, VS Code, Jupyter Notebook, Google Colab

**Core CS:** DSA, OOP, DBMS, Operating Systems, Computer Networks

## PROJECTS

### MediVision – AI Healthcare Assistant

2025

*React, TypeScript, Node.js, Python, TensorFlow, DenseNet201, OpenCV, Grad-CAM, MongoDB* – [GitHub](#)

- Built a DenseNet201-based chest X-ray classifier (COVID-19, Pneumonia, Normal) with pixel-level lung region localization.
- Integrated Grad-CAM heatmaps for Explainable AI, improving model transparency and clinical trust.
- Developed a full-stack platform with JWT auth, dashboard analytics, and an AI symptom-guidance chatbot.

### SmartBank Suite – Banking Management System

2024

*Java, Java Swing & AWT, MySQL, JDBC* – [GitHub](#)

- Built a full-featured Java desktop banking app with a GUI (Swing/AWT) and MySQL persistent storage.
- Implemented secure 5-digit PIN authentication and real-time operations: deposits, withdrawals, and transfers.

### MediHome – Intelligent Disease Diagnosis Assistant

2024

*Python, Flask, Scikit-Learn (Random Forest, Naive Bayes, Logistic Regression), HTML5, CSS3, JS*

- Developed an ensemble ML disease predictor with severity-weighted features and safe probability calibration.
- Built a responsive UI with dynamic symptom autocomplete, urgency flags, and real-time precaution recommendations.

## EDUCATION

**Bennett University** | BTech CSE with AI Specialization | CGPA: 9.0 / 10.00      2024 – 2028  
Greater Noida, Uttar Pradesh

## CERTIFICATIONS

Machine Learning with Python (IBM) | The Bits and Bytes of Computer Networking (Google) | Operating Systems and You (Google) | Data Structures and Algorithms (Infosys) | Introduction to Microprocessors (Arm) | Design Thinking (UVA) | Core Java (Infosys) | Python Fundamentals (Infosys) | Entrepreneurship I (UIUC)
